## Skills

- **Languages:** HTML, CSS, JavaScript, C++
- **Frameworks and Libraries:** React.js, Redux, Next.js, Zustand, ReactFlow, Tailwind CSS, Bootstrap, Ant Design (AntD)
- **Software and Tools:** Git/GitHub, AWS S3, AWS CloudFront, Auth.js, cPanel

## Work Experience

- **Software Developer** at Enorvision AIML Pvt. Ltd. (Apr 2024 – Present)
  - Built a Next.js platform for buying and selling unlisted shares, taking over mid-project and delivering Admin, Vendor, and Client portals with full role-based functionality.
  - Developed “Draax Fashions,” a fully dynamic fashion e-commerce application from scratch, featuring real-time product filtering, dynamic homepage content management, user reviews, wishlist, and complete cart functionality.
  - Created multiple responsive web apps using React.js, HTML, CSS, and vanilla JavaScript — tailored for diverse business needs with a focus on performance optimization, SEO, and mobile-first UX.
  - Engineered a no-code WhatsApp Chat Flow Builder using ReactFlow, allowing users to visually build interactive message sequences by dragging, connecting, and customizing chat nodes such as text, images, and buttons — replicating ad-style WhatsApp automation.
- **Front End Developer** at Shivila Technologies Pvt Limited (August 2023 - November 2023)
  - Designed and implemented an admin panel for a grocery website using React, enhancing operational efficiency and management capabilities.
  - Collaborated on the development of a housing booking platform, focusing on usability and intuitive design.

## Academic Details

Degree/Exam	University	Year
MCA	Graphic Era Hill University, Dehradun	2021-2023
BCA	Bhagwant Global University, Kotdwara	2017-2020

## Projects

- **Draax Fashions - E-commerce Platform** (React.js)
  - Launched a fully functional fashion e-commerce site with product listings, filtering, shopping cart, payments, and order tracking.
  - Project: [draaxfashions.com](https://draaxfashions.com)
- **IMS - Unlisted Share Management App** (Next.js)
  - Revamped a mid-stage project by implementing Admin, Vendor, and Client panels with robust role-based access control.
  - Streamlined workflows, enhanced user experience, and ensured consistency across interfaces.
