Work Experience

- **Software Developer** at Enorvision AIML Pvt. Ltd. (Apr 2024 – Present)
  - Built a Next.js platform for buying and selling unlisted shares, taking over mid-project and delivering Admin, Vendor, and Client portals with full role-based functionality.
  - Developed "Draax Fashions," a fully dynamic fashion e-commerce application from scratch, featuring real-time product filtering, dynamic homepage content management, user reviews, wishlist, and complete cart functionality.
  - Engineered a no-code WhatsApp Chat Flow Builder using ReactFlow, allowing users to visually build interactive message sequences by dragging, connecting, and customizing chat nodes such as text, images, and buttons — replicating ad-style WhatsApp automation.
  - Built Bharatpreneurs frontend from scratch in React with Ant Design, Axios interceptors, and Socket.IO, integrating 200MB multi-part file uploads to S3 using pre-signed URLs.
  - Delivered a business community platform featuring admin panel, multi-role access, blogs, news, events, marketplace, and real-time group chat.

- **Front End Developer intern** at Shivila Technologies Pvt Limited (August 2023 - November 2023)
  - Designed and implemented an admin panel for a grocery website using React, enhancing operational efficiency and management capabilities.
  - Collaborated on the development of a housing booking platform, focusing on usability and intuitive design.

Skills

- Languages: HTML, CSS, JavaScript, TypeScript, C++
- Frameworks and Libraries: React.js, Redux, Next.js, Zustand, ReactFlow, Tailwind CSS, Bootstrap, Ant Design (AntD), OAuth, Next Auth, Socket.io

Academic Details

Degree/Exam	University	Year
MCA	Graphic Era Hill University, Dehradun	2021-2023
BCA	Bhagwant Global University, Kotdwara	2017-2020

Projects

- **Draax Fashions - E-commerce Platform** (React.js)
  - Launched a fully functional SEO optimised, mobile first fashion e-commerce site with product listings, filtering, shopping cart, payments, and order tracking.

- **BHARATPRENEURS App** (React.js)
  - Built a full-stack business community platform with React.js, Ant Design, and Socket.IO, featuring multi-role access, authentication, admin panel, blogs, news, events, marketplace, and real-time group chat.

- Engineered secure 200MB file uploads to AWS S3 using multi-part pre-signed URLs and Axios interceptors for smooth API flows.
